MEMORANDUM FOR: Chairman, Utilization Advisory Board

SUBJECT: Army Request for Utilization of CHES Materials

REFERENCE: Memo to the Chairman from the Army Member,
TS(T)-2461, dated 17 September 1957

1. The manuscript of a sanitized study utilizing CHES material, entitled "Characteristics of the [REDACTED] loading Site" has been reviewed by HTAUTOMAT substantively qualified personnel and found to include no information revealing of source.

25X1

2. The study consists of a text, ground photographs from an unclassified source, and two graphics, one, a generalized location diagram of the site, and two, a schematic diagram of the rail yard.

3. It is noted that:

A. No source of any kind is cited;

B. The information presented in the study could come from a variety of sources unrelated to TALENT;

C. Classification will be SECRET-NOT RELEASABLE TO FOREIGN NATIONALS [REDACTED]

25X1A

4. Concurrence of service and CIA members of the Board for its release was obtained, and a reply to the Army prepared.

[REDACTED]
Chief, HTAUTOMAT
